# Price Updates for Stems and Floral Supplies

Stop coming in at 5 AM to get  
price lists ready for your sales people

To update pricing we have two different methods  
depending on your operation

## **Stem Pricing**

If you are using **our inventory control and are tracking incoming stems**, receiving a **PO Receiver** will update all pricing.

If you are not tracking incoming stems then we use an **Excel Spreadsheet** and **our auto price update software**.

## **Floral Supply Pricing**

Assuming that you are tracking your supply inventory with ProTrac for both incoming and outgoing inventory, you would use our **Electronic Price Update program**. It takes a **Vendors Excel Pricing File** and updates your supply pricing electronically.

If a vendor sends a product with a different price on their Vendor invoice - if you accept the price, then the **PO Receiving Process** will also update your pricing.

**This Excel Stem File is uploaded from ProTrac into Excel to update pricing**

There are 179 stems on this upload.

**STEM PRICE UPDATES, WHEN NOT TRACKING INCOMING STEMS**

Updating Stem Prices and copying price sheets for your sales people is a daily task that can take an hour or more when done by hand.

Using the ProTrac Price Upload Program you can upload a Stem Product Line with costs and selling prices directly into an EXCEL Document

Changing the cost of just those stems whose COST has Changes takes 10 – 15 minutes

It is normally done 3 times a week

1. Run a ProTrac Inventory report for all of your stems
2. Upload to an Excel Document
3. Change the COST of those stems who's COST has Changed
4. Using ProTrac's Electronic Pricing Program Upload this Excel Stem Report into ProTrac
5. Tell ProTrac to update all prices (takes 2 seconds)

No more price sheets to create and distribute

All of the sales people will have an electronic price in ProTrac for all stems and for all Floral Supplies

No one was paid overtime to come in early to get the pricing sheets ready

## Using ProTrac's Electronic Pricing Program to Auto Update Floral Supply Prices

**Syndicate has sent you their electronic Price update file in an Excel Program**

ProTrac has 25 Alpha Numeric characters in our Item Number field

ProTrac has 180 characters in the Description fields

This Excel Document will have upwards of 25 columns. ProTrac only needs 5 of the columns to update all of Syndicate's Pricing. You would take the five columns and using ProTrac's Electronic Price Program update 1000's of items in their catalog in seconds.

ProTrac has a **Stock** and a **Non-Stock field**. You would bring in all of the items in the Syndicate catalog. Now you have the pricing for every item in their catalog. The product can be auto priced by ProTrac without going to the catalog or to the Syndicate Web Site for the correct pricing

This makes it faster to update pricing and to sell both stock and non-stock products.

We can cover price updates in the inventory section of our ProTrac Webinar

## Floral Supply Inventory Pricing Record

In our demonstration of ProTrac we will show you how ProTrac arrives at the price for each of 11 price levels

**This is just the surface of ProTrac pricing.**

**We can price a single item for an individual customer.**

**We can price all of Syndicate for a single customer.**

**We can price a class of product from Syndicate for a single customer.**

**Floral Supply Inventory Record**  
 11 prices including list, Florist Price A - B - C Bucket Truck, Retail and Branches  
 You can rename any of these price levels to meet your needs.  
 ProTrac also offers Std Cost- Current Cost Average Cost-Last Cost and Freight Cost

## A Stem's Inventory Pricing Record

You have all of these pricing options and if you give permission to your sales people, they can negotiate on the phone with your customer.

We also have a quantity based pricing option that is calculated for all customers or for a single customer.

**Stand Pack Cost:**  
 StdCst: 31.75  
 CurrCst: 36.03  
 AvgCst: 32.75  
 LastCst: 34.75  
 Frgt Cst: 3.00

**This is the same record for a stem - It does have a Std Pack of a Bunch and if so designated ProTrac Adds this Standard Pack Cost to the record.**  
 ProTrac also has Promotional Pricing, Customer Based Pricing by stem, Qty based pricing by stem and by customer by stem
